

# Peace Dividends

**Benefits derived from ending  
The War on Fossil Fuels**

**Monetizing human, industrial and ecological benefits**

Paul Driessen • November 9, 2017

# Economic resurgence

- Curbing the Federal Leviathan
- Unleashing American muscle and ingenuity

# Electricity prices

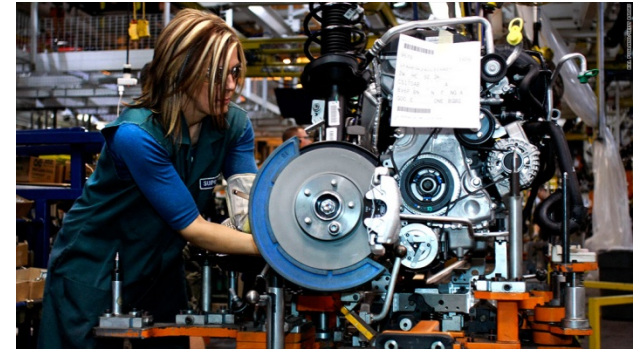

## Germany

- Family rate: 35¢ per kWh
- Business & Industry: 18¢

## California

- Family rate: 19¢ per kWh
- Business rate: 18¢ per kWh
- Industry rate: 14.5¢ per kWh

## Indiana-Kentucky-Virginia average

- Family rate: 11.7¢ per kWh
- Business rate: 9.5¢ per kWh
- Industry rate: 6.5¢ per kWh

# Hospital electricity costs

## **Inova Fairfax Women's & Children's Hospital**

- \$1.6 million/yr at 8¢ per kWh – Virginia cost
- \$3.6 million at 18¢ per kWh – CA/Germany cost

# U.S. electricity consumption

**United States electricity use: 3.5 billion MW-hours per year**

- At 8¢ per kWh = \$280 billion/yr
- At 18¢ per kWh = **\$630 billion/yr**

Wind in Colorado • Solar in California

H.F. Lee 920-MW combined cycle gas power plant, North Carolina

# Effects of high electricity prices

NATIONAL  
**SUICIDE** PREVENTION  
LIFELINE™

# Regulatory Peace Dividends

- \$9 million per life saved
- **\$9 billion Peace Dividend**

*The Campaign For*  
**COMMON-SENSE REGULATION**

**50%**  
**Electricity**

in New York State  
will come from  
renewable energy  
sources by 2030

**\$1 trillion in electricity  
cost increases**

# Oil & Gas leasing revenues

Federal leasing & production revenues

- \$24 billion in 2008
- **Only \$6 billion in 2016**

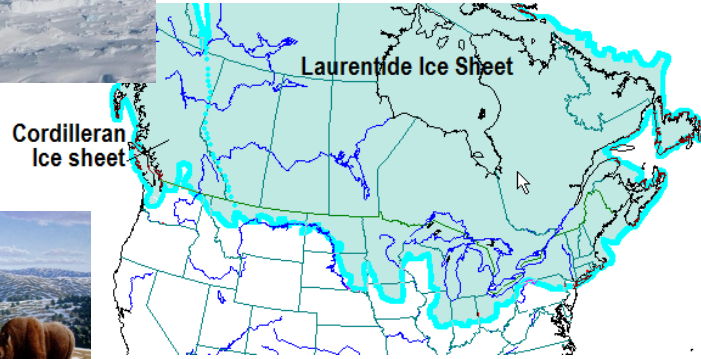

Federal recoverable oil and gas:

- \$60 trillion in value
- \$70 billion in potential 10-year revenue

# Serious natural climate risks

Geographic extent of  
Pleistocene glaciers

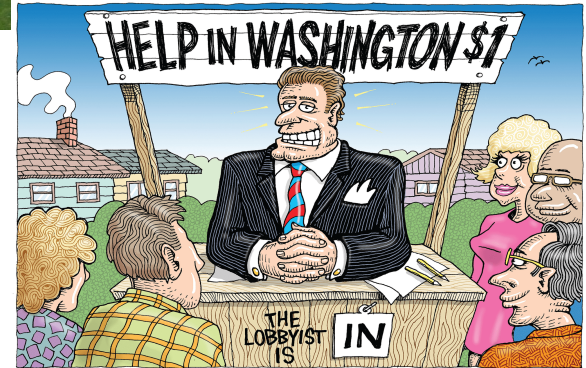

Rockport, TX after Harvey

Harvey ended a record  
12-year hurricane drought

# Crony corporatists & politicians

# Fossil versus renewable jobs

**2,000**-MW super-critical  
coal-fired power plant in WV

MegaWatt-hours per worker \*

- Coal: 7,750
- Gas: 3,800
- Wind: **835**
- Solar: **98**

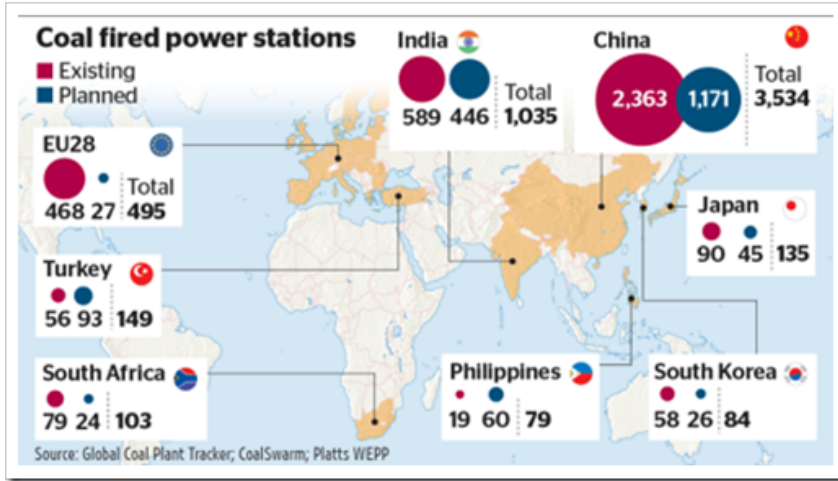

**20**-MW solar power plant  
in Hungary

\* Source: US Department of Energy;  
American Enterprise Institute

# Benefits of carbon dioxide

**1,600** coal-fired power plants planned or under construction worldwide: 2016

Carbon Dioxide: The Miracle Molecule –  
Greening Planet Earth

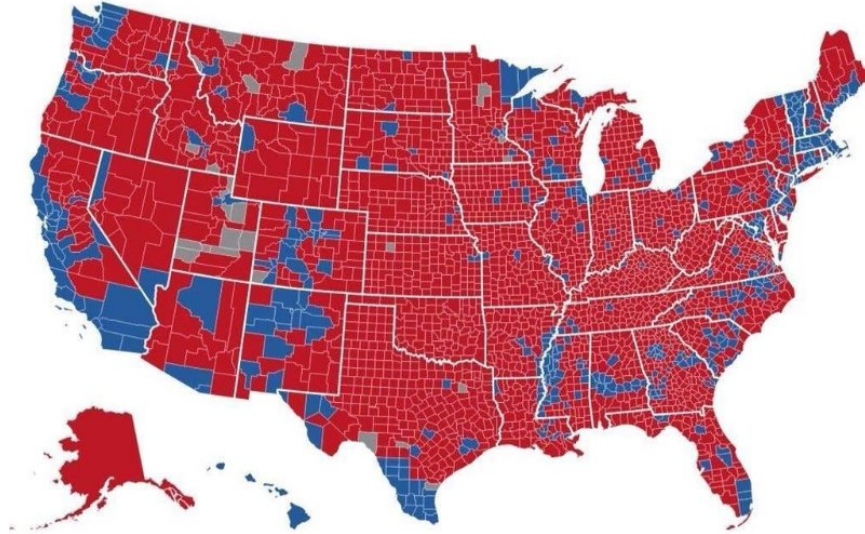

# Productivity and safety

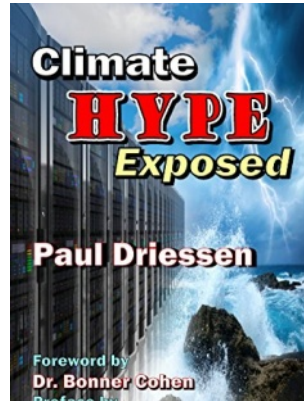

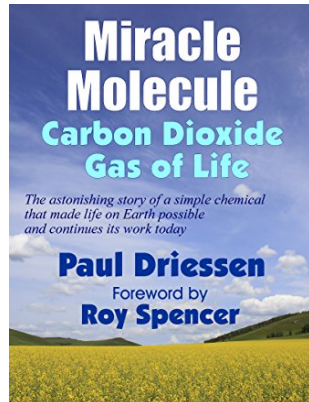

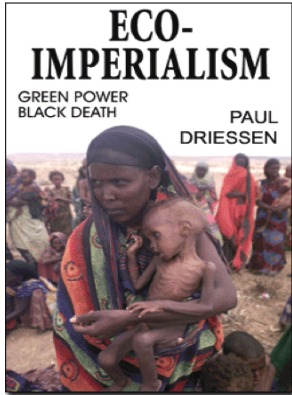

# The Peace Dividends will be YUGE!

95% of all US counties voted Trump-Pence
